# ORDER

(11-12-1974)

By their written statement dated 1-10-1974 the employers contend that the employees concerned were posted at Aravalem mine, suggesting thereby that they are mine workers, hence the Appropriate Government to make the reference would be the Central Government and not the State Government, the reference by the State Government is untenable, and the Tribunal has no jurisdiction to go on with the reference.

2. The two workmen concerned were examined on the above preliminary contention raised by the employers. Their evidence shows that at the material time, i. e. for sometime prior to 1-10-1972 they were working on road, i. e. they were looking after the maintenance of the road from Aravalem mine to the garage. Evidence of Amriti Pilligaonkar further shows that they were preparing sample bags, but this was done near the garage, and not in the mine. She has also stated that when there was no work of preparing sample bags, they were asked to work on road.

3. It is important to note that the conciliation proceedings initially started before the Labour Commissioner appointed by the Central Government. The employers took these up the contention that the workmen concerned were not mine workers, hence conciliation proceedings did not go on. This is not disputed by Mr. Bharme at the Bar. In view of the above objection, by the employers, conciliation proceedings were again started before the Labour Commissioner of the State Government. Now the employers want to contend that the workers in question are mine workers, hence the State Government has no jurisdiction to make the reference. This clearly indicates that the employers seek to approbate and reprobate, and desire to raise all sorts of plea and protract the proceedings with a view to harass the workmen concerned and thereby defeat their claim.

4. It is also important to note that in para 4 of the written statement filed on 7-11-1974, the employers admit that the two workmen concerned were employed at Coti Plot. In para 5 of that written statement, however, the employers allege that stocking on Coty Plot was stopped by the end of June 1970, hence the two workmen concerned could not be provided with work on that plot, their services were discontinued, by 16th July 1972 they were provided with work as casual labourers at Aravalem mine. This allegation in para 5 seems to be an after-thought. There is no indication of this allegation in the cross-examination of the two employees. All that is brought out in the cross-examination is that the road, on which these two workmen were working, leads to the mine and is near the mine. I am, therefore, unable to hold that the employers have established that the workmen concerned were working on the mine at the material time, i. e. when their services were discontinued since 1st October 1972.

5. I must mention here that although on 3-10-1974, the Tribunal adjourned this case to this day, making it clear that it would be heard from day-to-day, the employers have not chosen to lead evidence on the preliminary point, hence I have decided the preliminary point on the evidence led by the employees. I must also record here that no representative of the employers has attended the Tribunal today, only Mr. Bharme appears.

6. Mr. Bharme has referred to the union's letter dated 1-10-1972 annexed to the written statement dated 7-11-1974, in which it is mentioned:

«It has been reported that Road Labourers who have been transferred from Coty to Arvelem Mines have been asked by the Mines Manager Mr. Iyengar to discontinue from working as from 1st October 1972».

This letter was produced today, but it was not produced when the two workmen gave evidence on oath. Relying on this letter, Mr. Bharme contends admission by the union that the two workmen concerned were working on Aravalem mine. I am unable to accept this contention, because the portion quoted above makes it clear that this was merely information received by the General Secretary of the union. When evidence on oath is led, and when this letter was not produced, nor

relied upon during the cross-examination of those witnesses, this doubtful admission cannot be relied upon.

7. Reliance was also placed on para 4 of the statement of claim. Mr. Bharme relies on the first half of that para. It is, however, an established principle that admission must be considered as a whole and not only the suitable part of it. Referring to para 4 as a whole, it is quite clear that the two workmen have definitely alleged that they were working on the approach road, and not on the mine. I, therefore, over-rule the preliminary objection.
